SUMMARY

Dedicated Software Engineer with practical industry experience and a strong foundation in software development. Passionate about building efficient, scalable solutions, solving complex problems, and continuously expanding technical expertise. Seeking an Associate Software Engineer role to contribute to innovative projects and deliver impactful software solutions.

WORK EXPERIENCE

Software Engineer Intern | All In One Holdings (Pvt) Ltd ————— 2025 NOV - 2026 MAY

- Assisted coding, tested software, and contributed to product development in a collaborative environment, adhering to confidentiality protocols.
- Gain practical skills and insights into software engineering.

EDUCATION

Graduate Diploma in Software Engineering(GDSE) ————— 2023 - 2025

- Institute Of Java Software Engineering(IJSE)

Certificate Programme in IT Applications (CPITA) ————— 2019 - 2020

- Sri Lanka Institute Of Information Technology(SLIIT)

G.C.E. Advanced Level (A/L) – E.Technology Stream ————— 2020 - 2022

- SN/National Collage
- Results: C2, S1

G.C.E. Ordinary Level (O/L) ————— 2014 - 2019

- SN/National Collage
- Results: A5, C4

PROFESSIONAL SKILL

- **Languages:** Java, JavaScript, TypeScript, Python, HTML, CSS
- **Databases:** MySql, MongoDB, PostgreSQL
- **Cloud Platforms:** Firebase, Google Cloud Platform(GCP)
- **Framework & Libraries:** SpringBoot, Express, Node.JS, React.JS, React Native, Tailwind CSS, Bootstrap
- **Operating Systems :** Linux, Windows, MAC
- **Version Control :** Git, GitHub
- **Soft Skills :** Time Management, Team Player, Fast Learning, Problem Solving Collaboration

PROJECTS

Bar & Restaurant Management System (Associated With All In One Holdings (Pvt) Ltd)

- Built the frontend of a Bar & Restaurant Management System using React and Tailwind CSS.
- Integrated APIs and developed POS, Inventory, Payroll, Finance, KOT, Reporting, and Settings modules.
- Created responsive UI components and streamlined business operations through efficient system design.

Mahinda Panagoda Funeral Directors Website and Management System

(Associated With All In One Holdings (Pvt) Ltd)

- Developed a complete Funeral Directors Website and Management System, handling both frontend and backend development.
- Implemented core features including customer management, booking management, service management, payment tracking, and reporting functionalities.
- Designed and integrated responsive user interfaces, REST APIs, and database operations to deliver a full-stack business solution.

MediPlus web Application

- Developed MediPlus, a doctor-patient appointment web application enabling seamless appointment scheduling and management between patients and doctors.
- Built using a microservice-oriented approach with Spring Boot (backend) and React (frontend), integrated with multiple databases including MySQL, MongoDB, and PostgreSQL.
- Managed a poly-repository structure on GitHub and deployed both frontend and backend on Google Cloud Platform (GCP) for production use.

UTax web Application

- Developed U-Tax, a MERN stack-based tax management solution for Sri Lankan taxpayers as part of the Circle Edge competition.
- Designed a user-friendly interface and secure backend to simplify tax calculations and management.
- Achieved Second Place for demonstrating effective teamwork and innovative problem-solving.

Expenses Tracker Mobile App

- Developed a React Native and Firebase mobile app for efficient personal finance management.
- Implemented secure user authentication, expense tracking, and interactive bar graph visualizations.

Library Management System

- Developed a Library Management System using the MERN stack to manage books, readers, and borrowing records efficiently.
- Implemented features like real-time book availability, user authentication, email notifications & reminders and CRUD operations for books.
- Provided a responsive and intuitive interface for both librarians and users to browse, borrow, and track books.

Online Bus Seat Reservation Web Application

- Developed an Online Bus Seat Reservation system using Spring Boot and MySQL.
- Implemented instant e-ticket generation and trip reminder notifications for passengers.
- Built a secure, scalable backend with a user-friendly interface for seamless booking.
